EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Sally Brown on February 24, 2004.

The application has been amended as follows:

Claims 7, 10, 12-14, and 16 have been cancelled, as being drawn to a non-elected species.

Claims 18-31 are cancelled.

Claim 32 is amended as follows.

32 (2nd amended) [A] An airbag reaction housing comprising:
a cover having a skirt and a front panel with a plurality of windows; and
a metal-stamped reaction housing having a reaction surface and a plurality of integrally formed mounting projections, the mounting projections engaging the windows to substantially maintain a Z-height in a tensile direction, the reaction housing further comprising at least one integrally formed Z-height control tab engaging a top edge of the skirt to substantially maintain the Z-height in a compressive direction, wherein the Z-height control tab is aligned generally parallel to a plane extending across the reaction surface[, the reaction housing and the cover engaging along a line perpendicular to the plane].

Art Unit: 3616

2. The following is an examiner's statement of reasons for allowance: Claims 1 and 32 include the limitation of the mounting projections engaging the windows to define the Z-height and the Z-height control tab, which is aligned parallel to the reaction surface plane engaging a top edge of the skirt.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
